Droplet Infection Explained in Pictures.

"The Bureau of Public Health, Treasury Department, has just issued a striking poster drawn by Berryman, the well-known Washington cartoonist. The poster exemplifies the modern method of health education. A few years ago, under similar circumstances, the health authorities would have issued an official dry but scientifically accurate bulletin teaching the role of droplet infection in the spread of respiratory diseases. The only ones who would have understood the bulletin would have been those who already knew all about the subject. The man in the street, the plain citizen and the many millions who toil for their living would have had no time and no desire to wade through the technical phraseology."

BACK ON THE JOB

Robert A. Oliver, who dropped out of the active participation in the work of the Herald office about six months ago, has again taken up his share in the burdens and responsibilities of the work.

The Herald management believes in the future prosperity of the Tropic section. We have the ideal location for factories, with two prosperous ones already in operation. We have an adjoining tract for "home builders," already platted, with streets curbed and graded, and in a location second to none as regards soil, water, gas, electricity and street car facilities, which only awaits a settlement to the normal to witness a building boom. This will mean a greatly increased population for this section, and should again put life into the closed business rooms on San Fernando Boulevard.

We believe that the Herald can be a force in arriving at this much-to-be-desired situation, and we ask a continuance of your patronage and help, along these lines.

To all those who have so kindly assisted during the past six months, the senior partner takes this opportunity of expressing his sincere appreciation of the many courtesies, and asks their continuance.

Sincerely,

F. W.

A WORD OF WARNING

We understand that the Public Service Department has again made another raise in the charge to the users of both water and electricity. That the minimum charge for water will be \$1.25 per month, and a corresponding increase in the cost of electricity.

Only a short fourteen months ago, when Tropic was about to vote on

annexation to Glendale, the Public Service Department issued a circular, stating among other things that the water service of Glendale was so very excellent and reasonable, costing only \$1.00 pr month as the minimum, and with the hope that another reduction could soon be made. But the hope was not verified, as within the year an additional 10 cents a month was tacked on, and now it is to go higher.

Our city officials should remember that there was a strong faction here that were in favor of annexation to Los Angeles (Personally we always and that there are many in Glendale proper who have also favored such a change. This action by the Public Service Department puts a strong weapon in their hands, and it would not surprise us if the question of the annexation of Glendale to Los Angeles would again be brought forward.

Our taxes are high, now, and if the price of our water, gas, and electricity increases, combined with the phone extortion, the effect on our future is greatly to be feared. **Take Warning!**

TRUSTEES CHANGE METHOD OF ASSESSING AND TAX COLLECTING

Our city dads have finally taken the necessary steps which will save the taxpayers a considerable sum of money each year, which consists of having the assessing and tax collecting done by the county officials, doing away with the duplication of work as it has been in the past, and the consequent almost doubling of cost to the taxpayers.

The Tropic section tried out this system to its entire satisfaction, and even the big city of Los Angeles has adopted it. It not only means a saving of money to the taxpayer, but it also saves him time, as with the county system he makes his payments at

one time, one place, and gets one receipt.

Did you notice, though, that in the report of the proceedings, Trustee Woodberry was the only one to vote against the measure. Of course City Manager Watson could not vote.

FIFTH LIBERTY LOAN

The Fifth Liberty Loan will be known as the Victory Loan.

This is the announcement just received by Chairman Henry S. McKee of the Southern California Liberty Loan State Central Committee in advices outlining the plans for the next Liberty Loan drive.

The Victory Loan is one of the many great obligations that come to the Victors. President Wilson and the members of the American Peace Delegation are now in France looking after the world obligations. Our part now, in America, is to prepare to pay, in a small measure, the debt we owe our khaki and blue clad champions.

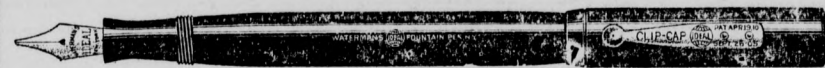

It is announced that a large part of the money to be raised in the Victory Loan Campaign next April, will be used in the rehabilitation of our wounded men. The Government will do its utmost to restore every wounded American soldier and sailor to health and self supporting activity.

As every wounded man passes through the medical and surgical treatment hospitals and is discharged by them, he will then be taken up by the Federal Board for Vocational Education. If his disability prevents return to work he left at the call of the Government, a wide choice of occupation is left open to him. If the injured man needs an artificial limb or appliance of any sort, the Government will provide it. He will receive regular compensation until this treatment or training ends, and the family will receive the allotments.

Leroy Manger, eleven-year-old son of Mr. and Mrs. William Manger, 701 West Doran Street, died of heart trouble at the family home last Saturday afternoon. He had been ill for about three weeks. Funeral services were held Monday afternoon at the home, and burial was made in Forest Lawn cemetery. Besides his parents, the boy leaves four brothers and three sisters.

Funeral services for Mrs. C. R. Butterfield were held last Tuesday afternoon at the Little Church of the Flowers, and burial made at Forest Lawn.

C. J. Letts, of 1410 West Lexington Drive, was seriously injured in an automobile accident Friday of last week, but is improving, and his full recovery is expected.

A. L. WEAVER DIES

Members of the local lodge of Elks were greatly shocked yesterday morning to receive word from Berkeley of the death there on Thursday, January 9th, of A. L. Weaver, one of the prominent members of the lodge, who went to Mare Island only a few months ago to enter the employ of the Hercules Powder Company there.

Death was caused by pneumonia, following influenza.

Word was also received that his wife, though still sick, is much improved, and his mother is ill also.

KNIGHTS GIVE BALL

The local council of the Knights of Columbus gave a ball last Saturday night at the Elks Club house in recognition of the kindness of the ladies who served the banquet for them at the institution of the council not long ago. About one hundred couples were present, and spent a very enjoyable evening. The music was furnished by Mansford Barnes, saxophone; Fred Dodge, drum; Myron Higbee, piano.

MRS. SHERER DIES

An unusual shock to Glendale residents came in the news of the death Tuesday at noon of Mrs. J. C. Sherer, wife of the Glendale city clerk. She died at the Sherer home "Somerset Farm," 715 South Verdugo Road, after an illness of four days of heart trouble and a severe cold. Funeral services were held Thursday morning at the Little Church of the Flowers at Forest Lawn Memorial Park, and the body was cremated.

Mrs. Sherer has lived at "Somerset Farm" since her marriage to Mr. Sherer about twenty-five years ago. Previous to that she had lived in Los Angeles for several years.

Mrs. Sherer's maiden name was Elizabeth Charlotte Parker, and she was born at Skowhegan, Maine, August 14, 1845. Her early life was spent in Boston, but she came to California in 1880 on account of her health.

Mrs. Sherer was an active member of the Tuesday afternoon Club during the earlier years of its existence, and was a member of St. Mark's Episcopal church.

HOME AGAIN

Lieutenant Fay G. Stone, reached Glendale last Monday, a few days after receiving his discharge from the army at Newport News, Va. He will resume his work at the dental profession here as soon as the necessary arrangements can be made. He will be located in Room 21, Cole & Damerell Building.

Dr. Stone is glad to get back home again, although he has had a very valuable experience in the army, which he says has been equal to a post-graduate course in his work. His train was stuck for two days in a snow drift in Kansas, which makes him especially appreciative of the climate here just now.

Indications are that if the company does not want a rival company, perhaps municipally owned, to appear in the local field, the maneuver next in order is a "strategic retreat," whether to "a previously prepared position" or not.

LOS ANGELES EDITOR DEAD

Southern California has sustained an unusual loss in the death a week ago of E. T. Earl, for years editor and owner of the Los Angeles Express, and of the Los Angeles Morning Tribune until its suspension a few months ago. Mr. Earl has made for himself a high place in the esteem of his fellow citizens. He was always boosting for Southern California and for good government, and his papers have always been clean and have consistently stood for the best things in politics and community life.

The Express will be continued, with a policy along the same lines, and though Mr. Earl's loss will be keenly felt, we are confident that his successors will continue to make the paper a power for good. It will be well for Los Angeles and all Southern California, if its influence may be greatly widened in the future.

GLENDALE MASONS RECEIVE DEGREE

Twenty-one members of Unity Chapter went to Los Angeles last Saturday night to the Commandry asylum in the Masonic Temple, and had conferred upon them the degree of Most Excellent Master. There was a class of eighty one in all, twenty-four being from Hollywood, and the others from other chapters. A pleasing feature of the program was the presentation to Mattison B. Jones, of this city, the retiring Most Illustrious Master, of a beautiful watch, in appreciation of his work in that office during the past year.

John Albert McGowan, 57 years of age, died Sunday at his home, 209 West Palmer Avenue. The body was taken to Santa Ana for burial.

The many friends of Lieutenant L. A. Lawson, son of Mr. and Mrs. J. W. Lawson, of 546 North Kenwood Street, will be glad to learn that he has been transferred from the balloon service at Camp Taylor, Kentucky, to the balloon school at Arcadia. He has already arrived in this part of the world, and spent the last week-end with his parents, reporting at Arcadia for duty on Monday.

Captain J. L. Flint arrived home from Fort Lee, Va., Monday afternoon to be with his family during his twenty-four day furlough. His second son arrived just a few hours ahead of him at Mrs. Ellen Early's home on East Palmer Avenue. He is an eight-pound husky little fellow, and he and his mother are doing nicely.

It is interesting to try to locate our boys "over there," now that they are allowed to tell us where they are stationed. Private Noble Ripley, with the 8th Infantry, is at Pons, which is a short distance north of Bordeaux on the Bay of Biscay, where they are guarding extensive warehouses. Corporal Charles Allen is over in Baure, quite a distance southeast of Paris, nearer the Switzerland border, where the 319th Engineers are erecting a large hospital. Neither of these boys have any idea when they will start for home, although they hear all kinds of rumors. Corporal Harry La Fountain, with the 8th Ammunition Train, of the Ordnance Detachment at Fort Lee, Va., writes that from the amount of repair work in sight, and more arriving all the time, it looks as if they will be kept busy for several years.

It was decided to purchase a \$100 Bond from the War Fund at the next Liberty Loan, also to furnish the sitting room in the Girls' Home Center and one of the large bedrooms, this last to be furnished by the various Unions.

R. S. Oliver and wife, recently from Chicago, are among the most recent additions to the ranks of Tropico citizens, and are "at home" in the D. O. Martin apartments on San Fernando Boulevard. PHONE TOLL RAISES STORM OF PROTEST

There was no lack of "pep" at the meeting of the Greater Glendale Development Association held at the Victor Hotel last Tuesday evening. The recent announcements of the telephone company precluded all possibility of the meeting's suffering for want of interest. The association thought it was dealing with important matters before, but here was something that made them all sit up. It has been a long time since anything has aroused such a storm of protest as the recent announcement that a toll charge of ten cents would be made for each two minute call to Los Angeles. The increase of 25 cents per month for the use of each residence phone, is not considered unreasonable, and scarcely a word of protest has been made with regard to that, but if the company persists in its plan to charge the toll for calls to the city, they will find themselves in for enough trouble to make them think the war has broken out again.

A number of citizens spoke in regard to the matter with an earnestness and eloquence quite surprising to their neighbors, but there was no argument on the matter—opinion was unanimous that the matter must be fought out, as such a course is entirely unreasonable and unfair.

City Attorney Evans has gone to consult the state Railway Commission to see if something can not be done to halt the proposed hold-up. It seems that the railway commission has disclaimed all responsibility in the matter since the federal government took control, and the government officials refuse to consider any individual cases, so the company has taken advantage of the opportunity to make a killing while nobody is looking. The citizens concerned have had their eyes opened, however, and in the way of a definite move in the matter, a card has been prepared and is being signed by the hundreds, reading as follows:

"The undersigned, subscriber to telephone service in Glendale and paying for the telephone(s) the minimum sum of \$.....per month, realizing that the change in telephone rate proposed by the Southern California Telephone Company is unreasonable and prohibitory, agrees

AT THE PALACE GRAND

Maurice Tourneur's "Sporting Life," the great Drury Lane melodrama, is at the Palace Grand today.

For tomorrow the attraction at the local theatre is Lois Weber's new production, "Borrowed Clothes," featuring Mildred Harris, now doubly famous, as the recently acquired wife of Charlie Chaplin. This is the first Mildred Harris picture shown here since her marriage was announced. There will also be a Fox Sunshine comedy, "Diver's Last Kiss." Matinee at 2:30, evening shows 6:45 and 8:45.

On Monday, January 13th, the amazing drama of an emperor's beautiful favorite will be presented, showing how a woman had a part in the launching of the greatest war of all history. "Kultur" is the title, and Gladys Brockwell plays the leading part. Also, Pathe News will be seen on the same program. Matinee at 2:30, evening shows at 6:45 and 8:45.

A chance to see Charles Ray at his best comes on Tuesday, when he will appear in "String Beans." He is soliciting subscribers for a newspaper, and he gives a coffee grinder with each subscription. There will also be a Christie comedy. Matinee at 2:30, evening shows at 7:00 and 8:45.

A charming picture will be presented on Wednesday, January 15, when Pauline Frederick appears in "A Daughter of the Old South." "She didn't put it on to be married in—oh, no!—she simply put it on to show her lover how nice she would look in it in case she should be the chief party at a wedding some day." There will also be one reel of comedy. The matinee will begin promptly at 2:30 and the evening shows at 7:00 and 8:45.

The picture that has been running at Clune's Auditorium for several weeks, D. W. Griffith's "The Greatest Thing in Life," will appear at the Palace Grand on Thursday. And there will be no raise in prices. Lillian Gish and Robert Harron are in it. It is the story of an American snob who found amid the death and muck of the life in the trenches of France life's greatest gift. Come and see it. The official Allied War Review will be shown on the same program. As usual, there will be a matinee at 2:30 and evening shows at 7:00 and at 8:45.

Our Allies in the Near East

By CHARLES EVANS HUGHES

Probably at no time in the history of the world have there been so many fatherless and motherless children as there are today. Tens of thousands, probably hundreds of thousands in Armenia, Syria, Caucasus, Persia, Mesopotamia and Palestine are not only without parents, but are without any strong parental government to give them the help and protection which orphan children of other lands enjoy.

American Consuls and missionaries cable the American Committee for Relief in the Near East, almost daily regarding the situation. One message from the Russian Caucasus pleads for the support of 10,000 children at an average expense of two dollars per month per child. Another from Tiflis reports 40,000 children in one region waiting for an answer to a previous cablegram requesting help. Reports from other points indicate similar conditions. Among the many appeals it is possible for this committee to assume responsibility for only the most pressing cases, and it is upon these that the committee would focus the attention of the American people. Splendid help has been rendered the little ones in other lands, but these in Western Asia are no less human than those who have already been aided by American charity. It is the duty of Americans, as well as a privilege to respond to this great opportunity and help keep alive the best civilization that Western Asia has developed.

All expenses of administration for this relief are privately met, so that every dollar sent to the committee is used directly by their agents in purchasing food and supplies for the needy who, according to the best advices and from audited reports, receive the full benefit of the funds sent them.

Out of the horror and nightmare through which these people have passed comes the gratifying word that we can be of assistance; that our efforts will prove availing, and that we can share with these orphan children the bounty which we, as Americans, have enjoyed for years. The work done by this committee has been most unselfish and effective under conditions of great personal sacrifice. May America respond to their appeals.

George Walsh appears "On the Jump" on the program for Friday, but he has plenty of time to fall in love. It is a picture full of pep and action. Burton Holmes travelogue on the same program. Matinee at 2:30. Evening shows at 7:00 and 8:45.

On Saturday a big double bill is offered next Saturday, January 18th.

First there is Wallace Reid in "Too Many Millions," where he starts out to spend all the money. This is adapted from Porter Emerson Brown's story, "Someone and Something." The other big attraction is Fatty Arbuckle in his latest picture, "The Sheriff." Matinee at 2:30, two evening shows, beginning at 6:45 and 8:45.
